Hello,

Thank you for purchasing this animation pack! This will be one of many animation packs that we will produce for developers to speed up animation for their games. We will continue to update this package, such as adding relevant animations and polishing current ones if we see fit. If you wish to see an animation added to this package, feel free to email us at icuzo2017@gmail.com. Again, these animations were animated using HumanIK so you will be able to use Generic or Humanoid animation type. I wish you the best luck on your game!

Sincerely,

Icuzo LLC
